

Thomas Cox

Frontend Developer (WordPress-focused)

Syston, Leicestershire, LE71NA

07454 895805 | tcox3563@gmail.com

Profile

Mid-level Frontend Developer with over 3 years of professional experience delivering custom WordPress websites for diverse clients. Currently lead developer on complex multilingual multisites and internal company projects, responsible for complete frontend builds - from planning and responsive design to animation and performance. Actively involved in auditing existing sites for WCAG 2.1+ compliance and potential for client-side performance optimisations. Strong collaborator who enjoys working closely with designers and developers to create clean, aesthetic, and scalable interfaces. Proficient in modern WordPress development and actively deepening frontend skills in my own time with React/TypeScript.

Key Skills

- Languages & Tools: HTML5, CSS3, Sass, JavaScript (ES6+), basic jQuery
- WordPress Ecosystem: ACF, Gravity Forms, WooCommerce, FacetWP, Custom Post Types, Taxonomies, Multisite
- Frontend Focus: Responsive UI, Accessibility, Animations (CSS Transitions and Keyframes, GSAP, Framer Motion), Figma to code
- Version Control: Git, GitHub, Bitbucket
- Design & Prototyping: Figma, Adobe XD
- Currently Exploring: React, TypeScript, Zustand, Tailwind, Framer Motion, Tanstack Query.

Professional Experience

Frontend Developer

Cite. — April 2025 – Present

Promoted to mid-level developer role but taking far greater responsibility within a small team, owning entire builds from kickoff to deployment. Trusted to plan, design, and implement frontend architecture and animations across large-scale WordPress projects. Given responsibility to manage the maintenance queue for all sites and delegate/schedule tasks for other colleagues based on my assessments for priorities and the company's needs.

- Sole developer on [major multilingual multisites](#) and custom theme builds
- Built [Cite agency site](#), including custom header animations and design input
- Collaborated with designers to translate mockups into clean, accessible interfaces
- Led accessibility audit of all existing sites in preparation for The European Accessibility Act (EAA) 2025. Published our company's highest-engagement blog article of the year on [the importance of accessibility](#).
- Integrated plugins like ACF, FacetWP, and WooCommerce for advanced filtering, eCommerce, and content management
- Participated in scoping, estimations, and cross-team collaboration for client projects

Junior Web Developer

Cite Ltd. — Feb 2022 – April 2025

Worked on a wide variety of WordPress sites. Gained deeper understanding of agency processes and workflows, familiarity with custom fields, templates, and the "WordPress way" of building flexible, user-friendly websites.

- Assisted on multi-template WordPress sites, custom blocks, and content structures
- Supported senior developers and gained experience in debugging, testing, and QA
- Integrated forms, galleries, filtering, and custom admin interfaces
- Built custom layouts using ACF, Gravity Forms, and reusable components

Website Assistant (Freelance/Part-Time)

Hut Six Digital — May 2019 – Present

Freelance/part-time support for a freelance WordPress developer. Maintained and updated content on client sites, handled WooCommerce product management, plugin support, and basic layout adjustments.

Education

BSc (Hons) Sport Psychology and Coaching Sciences – 2:1

Bournemouth University — Sept 2016 – Sept 2020
